7 TO 9 YEARS

Enter the Kids' Science Challenge!

Starting October 1, third- to sixth-graders can send in their designs and problems for scientists and engineers to tackle. The lucky winners then get to work with these experts on cool experiments. Go to Kidsciencechallenge.com to enter.

PARENTING SCHOOL YEARS

...er flick,
...school-age-kids
...like the *Goosebumps* series?
...ing spooked at this age is typically fine,
notes Putt, as long as there is no physical
harm, death or implied death, especially
grotesque imagery, or intense or disturbing
noises (such as heavy breathing or certain
music—remember *Jaws*?), and there is the
proverbial happy ending.

...at
...owing guidelines:

Read the fine print of the rating. DVD cases and movie websites will tell you exactly what to expect. Maybe pop it in yourself for a sneak preview. Ideally, you'd watch the show with him, but that's not always doable. Try to at least stay within shouting distance.

Be aware of existing issues. If your child already has sleep troubles or separation anxiety, or you just notice he's stressed, switch the channel. —Celeste J. Lim
