

Kids' Science Challenge

Check Out These Awesome Prizes!

There are four sets of prizes, one for each category: Flavor Science, SETI, Skateboard Engineering, and Water Ecology. There are grand and runner-up prizes in every category.

Flavor Science Prizes

- Tour of Joan's Flavor Lab! - Take an exclusive tour of Joan's flavor lab at Cadbury in New Jersey and learn the secrets of flavor science and candy-making from an expert!
- Ben & Jerry's Ice Cream Party! - Win an ice cream party bonanza (invite your friends or your class!) courtesy of the nearest Ben and Jerry's!

Science of Sweets Candy Factory Kit by Thames and Kosmos - Make cool candy concoctions and learn the chemistry of sugar and the biology of taste with this candy making kit.

Perfume Science Kit by Thames and Kosmos - Follow your nose on a fragrant journey through the science, history and art of making perfumes.

Chem. 1000 Kit by Thames and Kosmos - Chemistry is a major component of flavor creation. Learn about chemistry with this fun Thames and Kosmos kit.

Kids' Science Encyclopedia and Science Books by World Book - Encyclopedias are a whole library of science information just for kids.

SETI Prizes

- Visit to the SETI Institute! - Search for extraterrestrials with the SETI team of researchers in California and be a guest on Seth's radio show!

NexStar 4SE Computerized Telescope by Celestron - Space exploration is at your fingertips with the powerful, advanced design of Celestron Nexstar computerized telescopes.

SkyScout Personal Planetariums by Celestron - SkyScout locates over 50,000 objects in the night sky and shows you just where to look to find them.

Kids' Science Encyclopedia and Science Books by World Book - World Book Encyclopedias are a whole library of science information just for kids.

Celestial Seeker by Edmund Scientific - Flip the lid, insert one of the constellation cards and presto, an illuminating, portable star finder!

Hubble Science Cards by Think Button - Hubble Science Cards have been bringing the incredible imagery and science of the Hubble Telescope to people around the world.

The Young Scientist Series: Astronomy by Think Button - A great introduction to astronomy!

Skateboard Engineering Prizes

- A Week at Camp Woodward! - A trip to Camp Woodward puts you right in the middle of the most happening place to be for young skateboarders. Spend a week competing with other kids who skate and get lessons from the pros!
- Pro-Skater Visit to Your School! - Submit the winning skateboard entry and we'll send an X-Team skateboard pro to you, sponsored by Element. He'll put on a show for your entire school!

Skateboard by Gravity - Whatever you're into, Gravity has a specialty board to get you stoked.

Skateboard by Element - Endure the elements with skateboards fit for the pros.

Physics Workshop by Thames and Kosmos - Learn all you need to know about physics from this simple kit.

Kids' Science Encyclopedia and Science books by World Book - World Book Encyclopedias are a whole library of science information just for kids.

Water Ecology Prizes

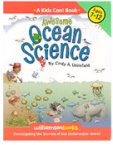

- Research Cruise with Adina! - Take a Discovery Voyage cruise at the Marine Science Institute in San Francisco Bay with Oceanographer Adina Payton.

Kayak by Sea Eagle - A super tough Sea Eagle kayak will take you anywhere you want to go on the water!

Digital Microscope by Celestron - This digital microscope unlocks the tiny world right before our eyes.

Aquatic Explorer by Think Button - Discover the Properties of Water. This kit contains 10 wet and wild activities that entertain and educate.

Awesome Ocean Science! by Think Button - Discover the big difference between melting ice at the Arctic and at the Antarctic a fascinating, eye-opening experiment .

Kids' Science Encyclopedia and Science Books by World Book - World Book Encyclopedias are a whole library of science information just for kids.
