

KIDS' SCIENCE CHALLENGE

A Free Nationwide Science Competition for 3rd-6th Graders

The first 1000 entrants receive a free Activity Kit with hands-on projects related to this year's science topics; Zero Waste, Animal Smarts and Meals on Mars.

- Lesson plans
- Science fair project ideas
- Online activities
- Videos, games and lots more!

How the competition works:

- 1 Kids research three exciting science topics.
- 2 Kids brainstorm their ideas.
- 3 Kids submit their ideas or experiments for scientists to solve. If your idea is chosen, you get to visit and collaborate with the scientists to see the idea come alive.

Other prizes include science kits, science equipment and cool science toys.

Open for entries October 1, 2011 through February 29, 2012.
